

Do not weaken the NJ DO NOT CALL Law!

Why in the name of heaven do you believe should PAY to be bothered by sales calls! Are you aware that cell users are usually people who no longer can afford the land line because of all the taxes added to them ? In addition, each cell phone plan has limited number of minutes per month for INCOMING as well as OUTGOING calls, so if I receive a sales call, I AM PAYING for it.

Leave the citizen some say in how they spend what little you leave us.
